Certified Gunn Intramuscular Stimulation practitioner (CGMIS)

Answer:

A Certified Gunn Intramuscular Stimulation Practitioner (CGIMS) is a physiotherapist (PT) who has been trained through the Institute for the Study and Treatment of Pain, founded by the developer of the IMS technique, Dr. Chan Gunn M.D. and offered through the University of British Columbia. A physiotherapist with CGIMS has at least 4 years clinical musculoskeletal or neuromuscular physiotherapy patient experience as well as either acupuncture certification or Level III of the Intermediate Diploma of Manual Therapy.
